

PGO Automobiles Mondial de l'Automobile 2008

THE PGO HEMERA

World Premiere at the Paris Motor Show where the French manufacturer **PGO Automobiles** unveils to the public its latest model: the **PGO HEMERA**.

Hall 5 / 1 - Stand 121

Paris, October 2nd 2008

Hemera: The new Experience

Comfortable, luminous and dynamic, the PGO HEMERA is a mix of a “coupé” and a shooting break. Elegant, refined, with its dazzling design and distinct urban style, the PGO HEMERA perpetuates the grace and beauty of the previous models, the SPEEDSTERII and the CEVENNES. Based on the same technical specifications, the HEMERA features a spacious open interior, accentuated by its unique glass bubble, creating a new driving experience.

The commercialization of the PGO HEMERA is scheduled for 2009's first quarter.

Cévennes and Speedster II: Refreshing Enhancement

The SPEEDSTERII and the CEVENNES are constantly enhanced. The newly designed hood with its modernised mechanism enhances its manoeuvrability. Thanks to larger windows and a wider windshield, the visibility and comfort are greatly increased.

Like the HEMERA, the wheels system has been developed and redefined in cooperation with Michelin ensuring greater driving comfort and better stability.

All prices of the new range of PGO automobiles have been adjusted for an even more attractive deal.

ISO 9001 Certification

Committed to quality, PGO Automobiles achieved in May 2008 the ISO 9001 certification. It has enabled the company to optimize and monitor production to meet customers' expectations and quality standards.

PGO ASSISTANCE

PGO Automobiles now offers its customers an assistance service available at all times (24/7) and throughout many European countries. PGO assistance delivers prompt and efficient service in French and in English. If needed, PGO owners can call the PGO assistance service during the vehicle warranty period.

PGO Automobiles

Created in the 80s and based in Alès, PGO Automobiles manufactures convertibles and “coupés” in small series. Just like an artwork of “haute couture”, the three models of PGO, the SPEEDSTERII, the Cevennes and the HEMERA are handmade using noble materials. Mastering French tradition and craftsmanship, luxury and refinement, PGO Automobiles builds cars for connoisseurs looking for a rare and prestigious model.
